At our No. 6 pick, wispy sea grass strands part to reveal miles of windswept white sands. The rough-hewn wooden boardwalk gives way to silky-smooth sand tickling your toes. And every worry, stress and worldly care instantly melts away. Some call it magic, but we call it the quintessential Hamptons vacation experience!

Call it jealousy, envy or all of the above, but life seems a little unfair when celebrities have assistants at their beck and call and we have...well, nothing that remotely compares. Sure, they've got a few extra zeros on their paychecks, but isn't the average man, woman or child entitled to a little star treatment now and then? That's what we love about Sea Crest on the Ocean – always looking out for the "common people." In place of traditional room service, this Hamptons resort boasts beach service that somehow enhances your East Coast vacation experience. From laying out chaise lounges to adjusting your umbrella to provide just the right amount of shade, these oceanfront aides cater to your every whim!

Sea Crest on the Ocean is no ordinary Hamptons family resort. Sure, there's a swimming pool – perfect for lazy days lounging by its side or playing rousing games of Marco Polo in its heated waters. But there's also a wide stretch of sandy East Coast beach for sandcastle building and a sand-filled oceanfront playground to keep kids busy and put parents at ease!
